

JOHN DEERE LAWN AND GARDEN EQUIPMENT

JOHN DEERE WEEKEND FREEDOM MACHINES

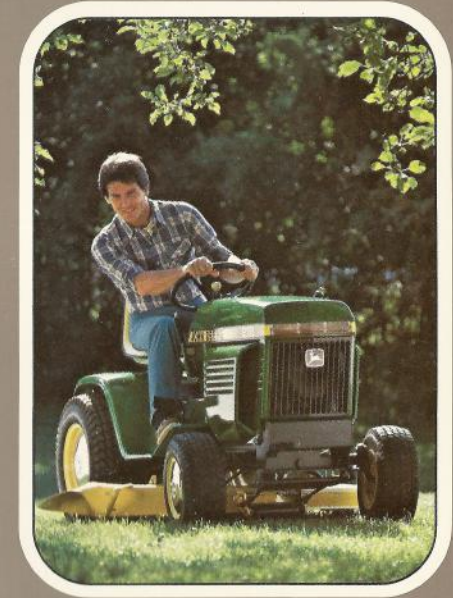

Keep your yard trim a dozen ways

The new John Deere 111 Lawn Tractor is powered by an 11-hp engine and comes equipped with a wide 38-inch mower. The new 108 Lawn Tractor has an 8-hp engine and 30-inch mower. Both tractors feature a 5-speed transmission and disk brake. Attachments include a rear-mounted grass catcher, front blade, and snow thrower.

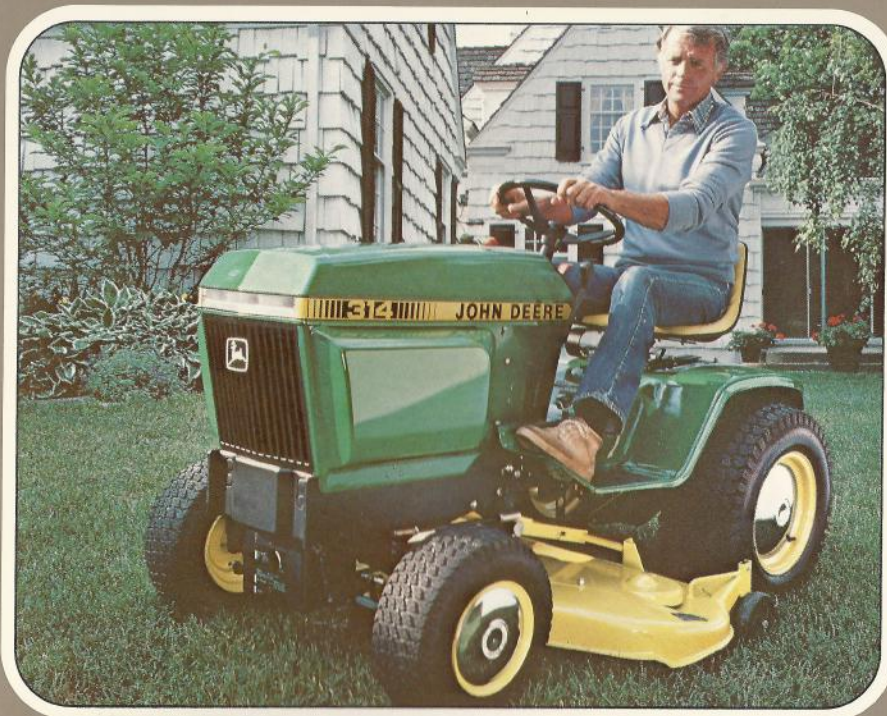

John Deere Nylon-Line Trimmers cut hard-to-reach spots with rapidly spinning nylon line. Electric models are right for around the home or anywhere electric current is available. Two gasoline engine-powered models are right for larger trimming jobs.

The 8-hp John Deere 68 Riding Mower features a 5-speed "shift on the go" transmission and 30- or 34-inch mower. A rear-mounted grass catcher attachment is available for the 30-inch mower. The 5-hp 65 Riding Mower features a 3-speed gear transmission and 28-inch mower.

The 200 Series Lawn and Garden Tractors come in 10, 12, 14 and 16 hp. The engine is enclosed for quiet riding. A unique variable-speed drive lets you change travel speed within each gear without clutching. Your choice of equipment lift systems: manual is standard, electric and hydraulic are optional. Attachments are available for mowing, tilling, blading, clearing snow, hauling and much more.

The 3-hp John Deere Edger trims your lawn along sidewalks, curbs and driveway, under hedges or around trees. Set the blade to cut vertical or horizontal, or angle it for a bevel edge.

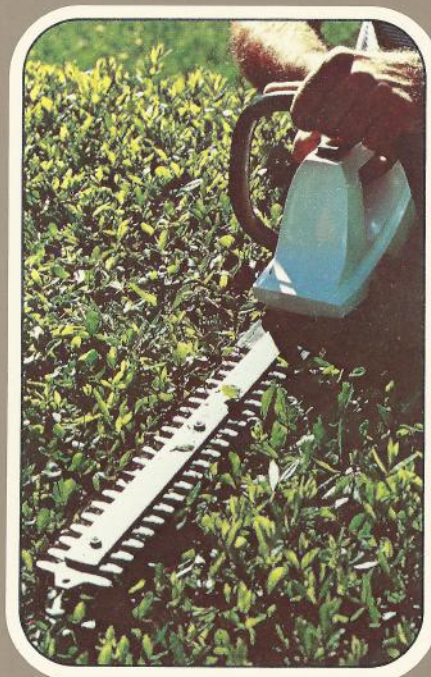

The John Deere 21-inch Self-Propelled Mower cuts, bags and mulches for three-way versatility. Powered by a 4-hp engine, this deluxe mower comes with a side discharge chute. Or, it can be equipped with an optional 2.5-bushel rear bagger, as shown. Three push-type mowers are available also.

The 300 Series Lawn and Garden Tractors provide hydrostatic drive, hydraulic equipment lift, and built-in headlights. Hydrostatic drive gives you one-lever control of forward and reverse speeds. No shifting; no clutching. The new 14-hp 314 Tractor features single-action hydraulic lift and isolated engine. The new 17-hp 317 Tractor is powered by a twin-cylinder engine. It features dual-action hydraulic lift for fingertip control over a wide choice of front-, mid- or rear-mounted attachments. With optional flow diverter valve, you can use two attachments on the 317 at the same time.

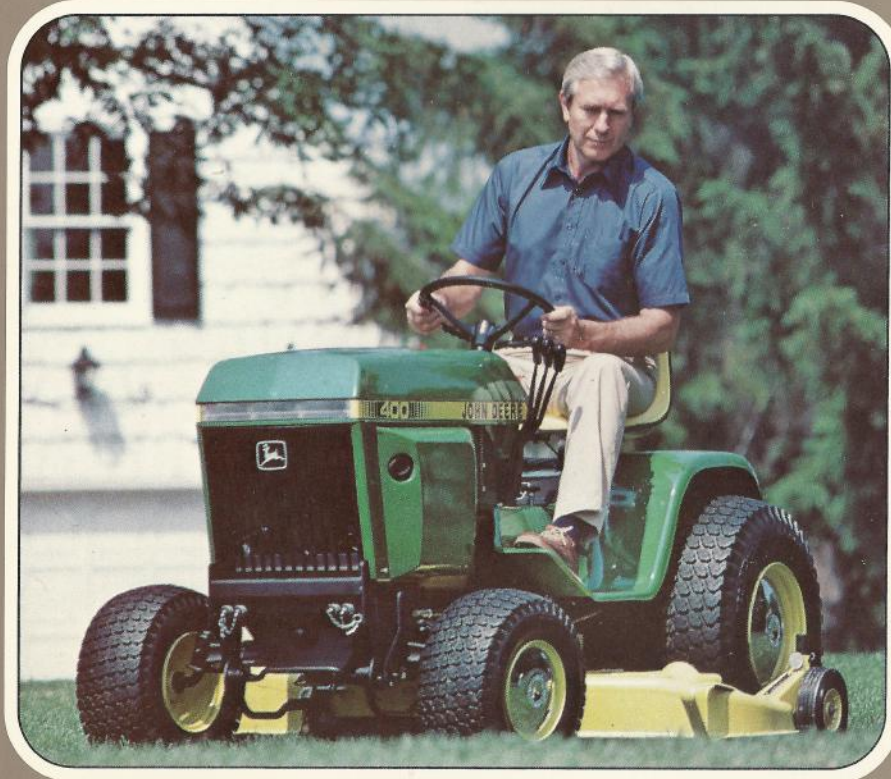

Cordless electric grass shears make final-touch trimming easy. Dependable nickel-cadmium batteries can be recharged many times for long service. Two models—with 3- and 4-inch cutting widths—are available. A wheel and handle assembly is available for stand-up trimming.

The 19.9-hp 400 Tractor features a twin-cylinder engine, power steering, built-in headlights, dual brakes, hydrostatic drive and a 2-speed rear axle. Triple-function hydraulic equipment lift lets you control the raising, lowering and angling of attachments with a gentle touch. A full range of attachments is available for the John Deere 400.

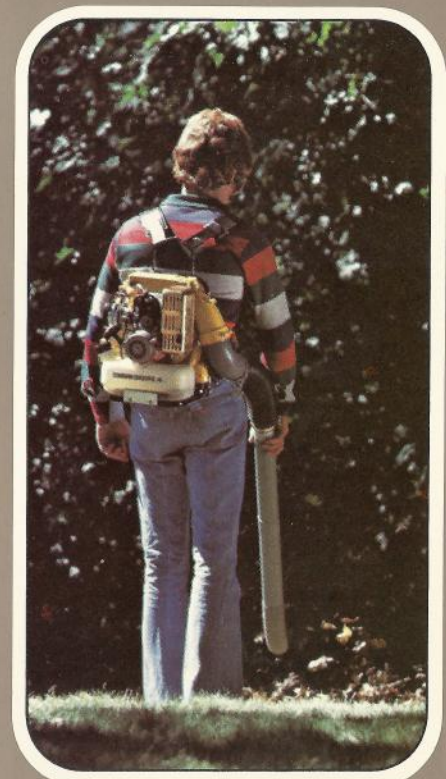

The new No. 4 Backpack Power Blower puts air power to work to take the stress and strain out of a wide variety of cleanup chores around your home and lawn. A 2-cycle, air-cooled engine provides the power to generate a wind velocity of up to 180 miles per hour. The blower weighs less than 20 pounds for go-anywhere convenience. Adjustable shoulder straps and a padded backrest make it easy to carry.

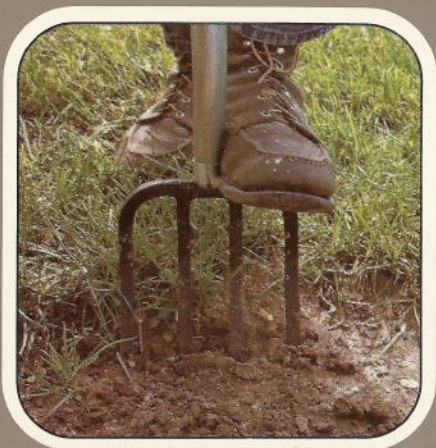

The hose caddy (above left) makes storage neat and easy. All John Deere hose is $\frac{5}{8}$ -inch inside diameter for good water flow. Couplings are brass to resist corrosion. Choose polyvinyl, rubber or reinforced plastic.

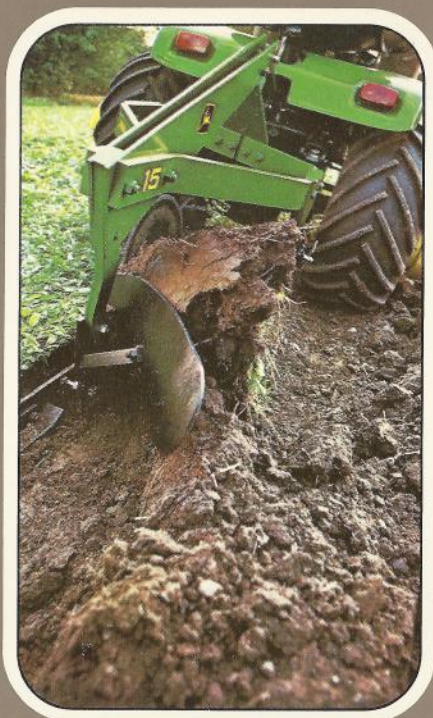

Cordless electric shrub and hedge trimmers (above) have alloy steel blades with a non-stick coating for easy trimming. There are three sizes to help you keep shrubs and hedges neat the safe, convenient, cordless way.

John Deere garden machines plow, till and cultivate

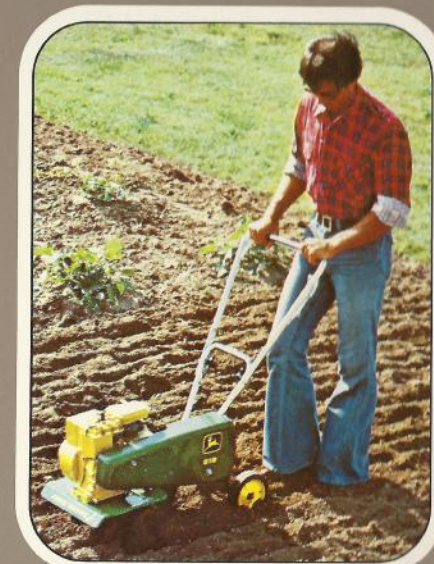

John Deere offers a wide variety of top-quality hand tools. Choose from shovels, spades, hoes, weed cutters, rakes, pruners, garden trowels and more. All are built right for years of service.

The 15 Plow is used on 300 Series and 400 Lawn and Garden Tractors. It works at depths of 4 to 8 inches with a 12-inch plow bottom. A 13-inch rolling coulter cuts sod or trash ahead of the plow.

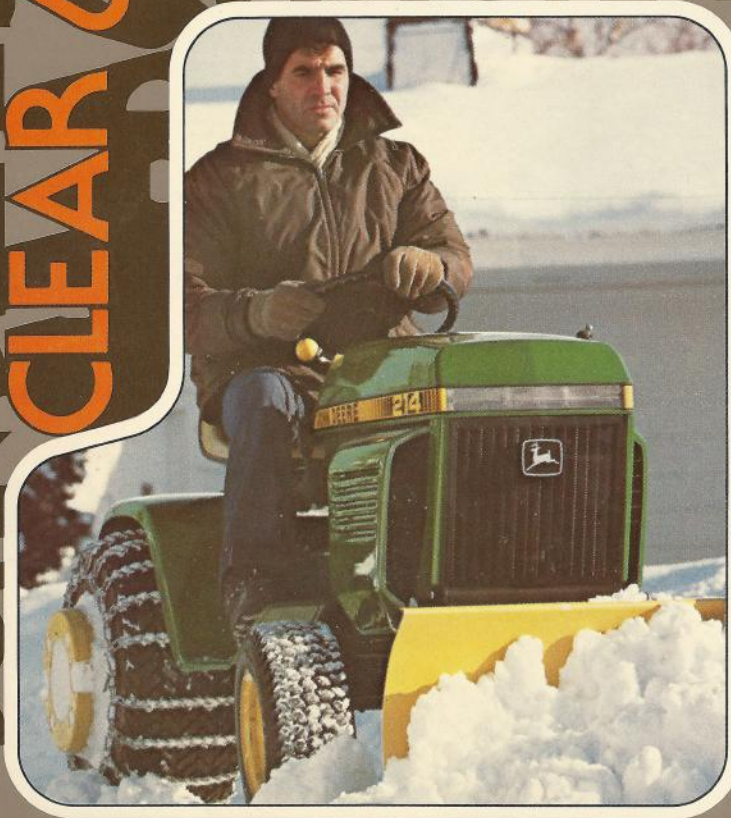

John Deere Rotary Tillers are available in 22- to 38-inch widths for 200 Series Tractors, 26- to 42-inch widths for 300 Series Tractors, and 48-inch width for the 400 Tractor. Rugged turbo-type tines till to a depth of 7 inches.

The 216 Compact Tiller is just the right size for backyard gardens. Though it weighs only 75 pounds, this 2-hp compact has power to handle all your gardening chores. It features a durable chain drive, double-action tines, full-width control bar on the handle, and a rear wheel/depth-bar assembly for easy transport. Tilling width: 16 inches (12 or 26 inches with optional tine kit). Tilling depth: 1 to 7½ inches. For larger gardens, 3½- and 6-hp units with tilling widths of 13 to 34 inches are available.

JOHN DEERE SNOW REMOVAL MACHINES CLEAR UP A STORM

Front blades remove snow in winter and grade gravel drives in summer. Sizes range from 42 inches on the 100 and 200 Series to 54 inches on the 300 Series and 400. Box-beam construction makes these blades exceptionally durable.

Tractor-mounted snow throwers come in sizes to match tractor power: 32 inches for the 100 Series; 38 inches for the 200 Series; 46 inches for the 300 Series and 400. All are designed for easy attaching and detaching.

The 320 Snow Thrower is the right snow removal machine for many homeowners. It clears 20-inch path to clean driveways and sidewalks quickly. It has a 3-hp, 2-cycle engine, easy-rolling 7-inch wheels and an adjustable handle.

The 8- and 10-hp John Deere Snow Blowers provide 5 forward speeds and a reverse. Two-stage design features a 16-inch auger and a high-speed blower—the most effective way to clear deep snow in a hurry.
